</tr>
</thead>
</table>

**Hazard:**  
Fuel-Updated to hydraulic fluid after spoke with emergency response  

**Quantity:**  
Unknown  

**Location**  
GPS: 40.173844 -79.734995  

**Location description and proximity to intake.**  
County: Westmoreland  
Municipality: South Huntingdon  
Flying J is ~ 1 mile from any potential tributary to the Youghiogheny  

**Source Water Protection Area and nearest PWSID**  
Youghiogheny 5020025-McKeesport;  

**Time of Travel (Youghiogheny only): River miles measured from the Youghiogheny Dam.**  
Discharge at confluence was 11,900 cf/sec (3.55 mi/hr). 22 miles from nearest point on the Youghiogheny to the intake. 22/3.55= 6.2 hrs. If this occurred at the time it was reported on facebook at 1630 and immediately flowed in the Youghiogheny, would impact the plant at ~2230.
